ACL Reporting Introduction:

The ACL Reporting System is an ACL-wide grantee management application focusing on program performance, planning and federal report submission. The program currently supported is State Councils on Developmental Disabilities.

The ACL Reporting User Guide documents how to use the ACL Reporting system.

ACL Reporting Login Instructions:

1. Navigate to ACL Reporting: <https://reporting.acl.gov>

The ACL Reporting Homepage will feature the login information. You may log in with your given credentials, created by your Registrar, or you may authenticate using one of the social media outlets provided: Google, Facebook or LinkedIn. Talk to your Executive Director (Registrar) for questions regarding requesting an ACL Reporting account. You may only log in using your chosen login method (i.e. your chosen social media or your provided credentials - once your account has been created and your login method is identified- you may not log in through multiple methods).

If you choose to contact your Registrar to set up an account please reach out to them outside of the system with the following information so they can create your account:

- Login ID
- First Name
- Last Name
- Email
- Login Provider (ACL-username/password, Google, LinkedIn, Facebook)
- Agency Program (DD Council)
- Profiles (Grantee, Grantee Reviewer, Grantee/Grantee Reviewer)

If you are having issues with the credentials you were provided with by your Registrar, outside of the system, please contact them to resolve or inquire about any issues you may be having with your account.

Also, remember when logging in and authenticating with one of the social media accounts, make sure you are logged in to that social media account before logging into ACL Reporting and continue to use that same account. If you are not logged in to that social media prior to logging in to ACL Reporting, the system will prompt you to log in with the social media you chose- just remember to continue using the same social media to log in otherwise you may be unsuccessful in accessing the system.

If you chose to log in through the ACL username and password, you will be given a password, by your Registrar, and after first logging in to ACL Reporting navigate to your Account Settings and reset your password to ensure further security. Once you have reset your password select Dashboard to navigate back to your dashboard to begin your data entry.

2. Once you have successfully logged in, you will then be navigated to your dashboard. Grantees and Reviewers will view a dashboard with sections of information that need to be completed and submitted to be reviewed. A PO (Project Officer) will be navigated to a PO dashboard but will have access to the Grantee dashboards to review the information submitted by both the Grantee/Reviewer roles. Below are examples of the dashboards within the system:

ACL Reporting Account Registration:

If a person needs to have an account that is accessed through username/password in ACL Reporting rather than authenticating with the social media options they must contact their assigned Registrar and send them the information bulleted below. If they don't know who their Registrar is they must contact their Executive Director.

- Login (create a short login to access the system)
- First Name
- Last Name
- Email
- Agency Program: DD Council
- User role(s): Grantee, Grantee Reviewer, Registrar

Upon sending this request to your Registrar, they will create your account accordingly and will then contact you with your account information.

ACL Reporting Role Permissions:

ACL Reporting has four (4) roles:

1. **Grantee** - A Grantee has access to log in to ACL Reporting. Their dashboard will provide them access to enter information for their grant to report on for the life of the grant. They will be able to select Save to save their data and will be prompted to do so before leaving that section. You may save without submitting for review if you wish to work on the sections in phases. Once the information has been successfully saved, and all of the sub-sections for that section are completed, they will be able to select Ready for Internal Review. If a Reviewer or PO requests a revision be made to a certain section, a Grantee will have access to that section to make the appropriate edit(s) and will then be able to select Ready for Internal Review, again. The Grantee role has the ability to view and print their reports at any time. A Grantee can change their password if they chose the ACL method for logging in with username/password.
2. **Reviewer** - A Reviewer has access to log in to ACL Reporting. The person who possess this role is someone who works within the DD Council. Their dashboard will show the completed sections for the Reviewer to review. The Reviewer will have the ability to edit the sections and select Review or Request a Revision if a change is necessary for that section and it will need to be edited by the Grantee and resubmitted for internal review. Once all of the sections have been reviewed/approved by the Reviewer, they will then hit Submit. A Reviewer can change their password if they chose the ACL method for logging in with username/password.
3. **PO** - A Project Officer (PO) is your assigned Federal staff with access to log in to ACL Reporting and has access to log in to ACL Reporting. Their dashboard will display the statuses of the reports from all of their grantees. A PO has the ability to expand a region and then select a state within that region. Upon selecting a state, that will navigate the PO to that grantee's dashboard. From there, they are able to review the Grantee's data for approval. A PO can request a revision by selecting Disapprove, but will be unable to edit the information. A PO can then continue to review the data by section and select Validate if that section is correct. If a PO has Validated all of the sections, the PO can then Approve the report. If even just one section is selected as Disapproved, the PO must Reject the report. The Grantee will then need to make the appropriate edits to the specified sections, have the Reviewer review/approve the document and then the PO can fully Approve the report. (Please refer to the workflow listed in the Appendix). A PO can change their password if they chose the ACL method for logging in with username/password.
4. **Registrar** - A Registrar has access to log in to ACL Reporting. Each grant has an identified Registrar who will be responsible for creating accounts, providing account information, deactivating accounts or deleting accounts. A Registrar can change their own password if they chose the ACL method for logging in with username/password.

DD Council Data Entry:

The dashboard shows the different sections and when a section is expanded sub-sections will be shown as applicable. Statuses (Not Started, In Progress, Ready for Internal Review, Reviewed, Submitted, Disapproved, Approved) will be displayed for each section.

The statuses have different meanings:

- Not Started - That section has not been touched, no information has been entered.
- In Progress - The Grantee has begun entering data into that section and has Saved the data. That section may or may not be completed.
- Ready for Internal Review - The data has been entered in completely by the Grantee and is ready to be reviewed by the Reviewer.
- Reviewed - The information has been reviewed but not yet Submitted by the Reviewer.
- Submitted - The information was officially submitted by the Reviewer for review by the PO.
- Disapproved - the information was rejected by the PO. The Grantee will need to make the appropriate edits.
- Approved - the information was approved by the PO.

Below are the sections that need to be completed/reviewed/approved. Guidance is listed in each section for certain fields:

DD Council Reporting Tips

- N/A is a valid response for any required text fields and 0 is a valid response for any required numerical fields
- When copying and pasting information in to the rich text editors (text boxes with formatting features) be sure to right click in the field you wish to paste the information and select:
Paste as plain text (for Chrome and Internet Explorer)
or you can simply just select Ctrl-Shift-V (for Chrome and FireFox) or Command-Option-V or Edit > Paste and Match Style (for Safari)
or paste the information into Notepad (Chrome, Firefox and Internet Explorer) or TextEdit (Safari) which should strip the formatting when you copy and paste from there.

These options will strip your text from its original formatting so there are no spacing issues created and when you select Done you are able to view the beginning of your text from the page in a collapsed view. Copying information over by right clicking and selecting Paste or selecting Ctrl V will create spacing/formatting issues. Again, the rich text editor fields are equipped with formatting features so feel free to use those as needed!

- The ! icons are used to signal when a field still needs to be edited. Once it's complete it will disappear to signal to the user that that section is completed.
- The ? icon is used as a pop-out window that provides any Help Text for the section that would prove useful in helping the Grantee complete it successfully
- The Add + button is used in the 5 Year Goals and Annual Work Planning sections and it used for the Grantee to add goals/objectives to those sections
- The Delta symbol (Δ) is used in the dashboard to indicate when a change has been made to a given section that has already been approved
- ACL Reporting allows users to work on different sections at the same time. Only one user should be working on a section at any time. The system will save the data from the user who did the last save.
- Once a grantee submits their information to the PO, they can no longer make any edits. Reports can be generated in the system at any point in time.
- Printing instructions:
 - **Chrome-** Log in and select View Report while in one of the data sections, it will then generate an HTML report. Right click on the report and select Print from the dropdown and you'll see a new screen pop-up. To the left on the screen change the Destination to Save as PDF. Then click Save and in the new pop-up select Save again and save the report to your desktop then you'll have a PDF version of the report.
 - **IE-** Log in and select View Report while in one of the data sections, it will then generate an HTML report. Right click on the report and select Print from the dropdown and you'll see a pop-up screen that has a scroll bar, if you scroll it to the left, you'll see the option to select Adobe PDF, select that then Apply and then Print and then in a couple seconds a new screen will appear and you'll select Save again and then your pdf will pop-up.

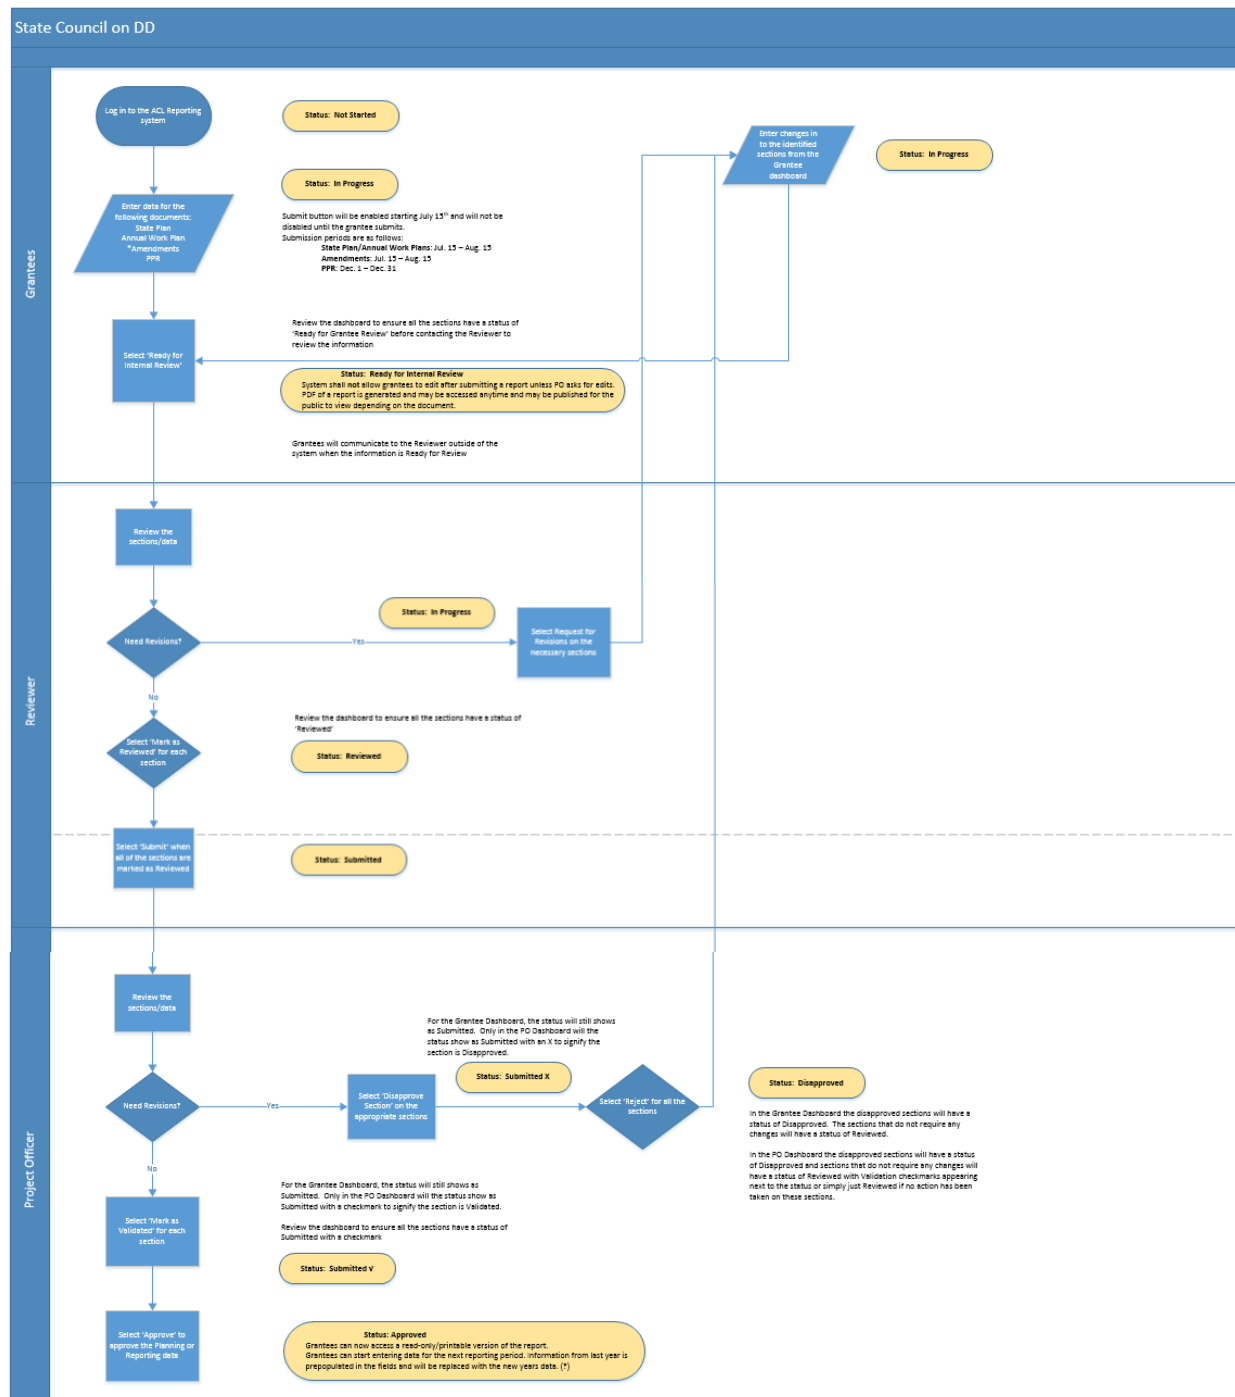

FF- Log in and select View Report while in one of the data sections, it will then generate an HTML report and then select the three lines farthest to the left and select Print from that dropdown. Based on the information provided in items a – h, describe the Councils' analysis of the issues, challenges, and limitations, if any related to the state waiting list(s). This field has a character limit of 4,000 characters.

**Comprehensive Review and Analysis >> Analysis of State Issues and Challenges
>> Analysis of the adequacy of current resources and projected availability of future resources to fund services**

- Using available tools and/or data, summarize the State's current resources to fund services for people with developmental disabilities and their families.
- In reviewing the State resources, Councils may want to:
 - Include information about the State's fiscal resources to fund home and community-based services, long-term services and supports, education services, employment services, transportation services, etc.

- Estimate the State's future resources for funding services (sources for this type of information may be the State's proposed budget, studies of State spending trends, etc.).
- Use data from the National Core Indicators project, the State of the State in Developmental Disabilities study, the Annual Residential Services and Trends

Report, the Annual Report on Day and Employment Supports, and the Special Education Expenditure Project.

- Information about resources is required per Section 124(c)(3)(C)(vi).
- This section is limited to 12,000 characters.

Comprehensive Review and Analysis >> Analysis of State Issues and Challenges >> Analysis of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities who are in facilities receive

- Provide information that describes the Council's analysis of the adequacy of health care and other services, supports, and assistance that people with developmental disabilities who are in facilities receive. This description should be based in part on each independent review (pursuant to section 1902(a)(30)(C) of the Social Security Act (42

U.S.C. 1396a(a)(30)(C))) of an Intermediate Care Facility within the State, which the State shall provide to the Council not later than 30 days after the availability of the review.

- Adequacy may be described in terms of quality and/or population served versus need.
- Facilities can include state-run institutions, privately run institutions, intermediary care facilities, nursing homes or some other type of facility identified by the Council.
- Information about health care and other services, supports, and assistance is required per Section 124(c)(3)(C)(vii).
- This section is limited to 12,000 characters.

Comprehensive Review and Analysis >> Analysis of State Issues and Challenges >> To the extent that information is available, the adequacy of home and community-based waivers services (authorized under section 1915(c) of the Social Security Act (42 U.S.C. 1396n(c)))

- Summarize the Council's analysis of the adequacy of services provided through home and community-based waivers for people with developmental disabilities authorized under Section 1915(c) of the Social Security Act.
- Adequacy may be described in terms of quality and/or population served versus need.
- Information about home and community-based waivers services is required per Section 124(c)(3)(C)(viii).
- This section is limited to 12,000 characters.

Comprehensive Review and Analysis >> Rationale for Goal Selection

- Provide a rationale for the Council's selection of specific goals based on and related to the information in Part A and information from the CRA provided in Parts B and C; including rationale for strategies selected to address the goals. There should be a direct relationship between the goals and the needs identified based on the data collected and/or reviewed and feedback from a wide range of diverse stakeholders.
- Given that the DD Act provides a broad mandate to address needs in the State, it is essential that Councils prioritize their work. Not all the issues identified and analyzed in

Parts B and C can be addressed by the Council. Include a brief explanation of how the Council prioritized issues to be addressed in the Plan.

- The rationale is required per Section 124(c)(3)(E).
- This section is limited to 12,000 characters.

Rationale for Goal Selection >> Collaboration [Section 124(c)(3)(D)]

Describe how, through interagency agreements or other mechanisms, the UCEDD(s) and P&A will collaborate with the Council to achieve outcomes consistent with the Council purpose. Information about DD Network collaboration is required per Section 124(c)(3)(D). Each subsection below is limited to 12,000 characters.

1. As a Network: Describe the planning of collaborative efforts (goals, objectives, or activities of a goal or objective) of the Council, P&A, and UCEDD(s), and how each entity will use their resources in collaboration with the effort(s) that are supported by the Comprehensive Review and Analysis.
2. With each other: Describe plans the Council has to collaborate with the UCEDD(s). Describe plans the Council has to collaborate with the P&A and how each of these plans will assist in the Council purpose.
3. With other entities: Describe how the DD Network will collaborate with other entities in the State, including both disability and non-disability organizations, as well as the State agency responsible for developmental disabilities services, to assist with the goals and outcomes of the Council's 5 year state plan. Identify the organizations and summarize the collaborative activities planned, such as joint meetings, joint public education events/initiatives, joint trainings, etc.

5-Year Goals

Included in the Council's goals are:

Self-Advocacy Goal(s)

1-3 Goals, and/or objectives, to address the self-advocacy requirement to:

- Establish or strengthen a program for the direct funding of a State self-advocacy organization led by individuals with developmental disabilities;

- Support opportunities for individuals with developmental disabilities who are considered leaders to provide leadership training to individuals with developmental disabilities who may become leaders; and
- Support and expand participation of individuals with developmental disabilities in cross-disability and culturally diverse leadership coalitions

Note: For each of the years of a 5-Year State Plan, there must be obvious work being done related to the three requirements of self-advocacy (as mandated in the DD Act– strengthen a statewide SA organization, SA leaders training others, and; SA as part of coalitions.

Include at least one goal and/or objective to address the following two components during the course of the 5-year State plan implementation:

Targeted Disparity

Based on the findings of the comprehensive review and analysis (1) identify a subpopulation (i.e., racial, ethnic, sexual orientation, gender minority groups with developmental disabilities) vulnerable to disparities (e.g., health, education, employment, housing, etc.) (2) Identify a disparity and develop an impact statement in a targeted area of emphasis around individual/family advocacy and/or systems change; and implement strategies to decrease the differences in access, service use, and outcomes among such sub population during the course of the 5 year state plan implementation. The identified targeted disparity could be a goal, an objective, or an activity within a goal or objective. These strategies should include evidenced based, best and/or promising practices, to the extent feasible.

5-Year Goals >> Areas of Emphasis

For each goal, check all the area(s) of emphasis that relate to the goal statement. Here are the definitions of the area(s) of emphasis.

Evaluation Plan

- Outline how the Council will examine the progress made in achieving the goals of the State Plan to determine:
 - The extent to which the goals were achieved;
 - The strategies that contributed to achieving the goals;
 - Factors that impeded achievement of the goal(s);
 - Separate information on the self-advocacy goal and the three required elements;
 - As appropriate, an update on the results of the comprehensive review and analysis; and
 - As appropriate, consumer satisfaction with Council supported or conducted activities.
 - Explain the methodology, which may be qualitative or quantitative, that will be used to determine if the needs identified and discussed are being met and if the Council results are being achieved.

- Define the procedures the Council will use to monitor progress in meeting its goals including tracking the progress to address the targeted disparity
- Discuss Council activities that will measure or otherwise address the Council's effectiveness.
- The evaluation plan should not be limited to measuring the progress of the performance measures. The evaluation plan should also measure the extent to which the intended sub-outcomes for the given objective are being met. This is above and beyond the performance measures. The performance measures are solely a snap shot of a piece of data that should be assessed in the larger context of the intended sub-outcome measures of the objective and achievement of the goal.
- Councils are encouraged to develop its own methods and measures for determining progress, such as annual benchmarks for the goals that are tied to measuring outcomes.
- In describing the evaluation plan, Councils are required to use and submit a logic model. The logic model generally summarizes the logical connections between the needs that are the focus of the Council, Council goals and objectives, the target population, Council inputs (resources), the proposed activities/processes/outputs directed toward the target needs/population, the expected short- and long-term outcomes the Council plans to achieve, and the data sources the DD Council will use to measuring the extent to which proposed processes and outcomes actually occur and have been achieved.
- Describe the Council's role in reviewing and commenting on the progress towards reaching the goals of the Plan.
- Describe how the annual review will identify emerging trends and needs as a means for updating the Comprehensive Review and Analysis.
- This section is limited to 12,000 characters.

Projected Council Budget

- Provide the budget, broken down into three cost categories (Goals, General Management, and DSA functions) for the first year of the grant only. The Council will submit budget for subsequent years of the grant through the State Plan Amendments.
- Provide the breakdown of Part B funds (the Council's allotment from ADD) for each cost category; the amount of money from other sources, such as match, for each cost category; and the total amount for each cost category.
 - GOALS COST CATEGORY: Break down the costs associated with the goals of the plan by each goal. For example, if the Council has 5 goals, there should be 5 line items identifying the budget amount for each goal. The budget amounts for the goals may vary and should be based on the planned activities. Section 124(c)(5) requires that not less than 70 percent of the funds available to the Council will be expended for activities related to the goals. Therefore, the total amount for the goals must be at least 70 percent of the Council's total allotment.

For example, if the Council has 5 goals, the total budget for the 5 goals should amount to at least 70 percent of the Council's total allotment.

- **GENERAL MANAGEMENT COST CATEGORY:** Show the amount of money budgeted for administrative type functions. This may include personnel, budget, finance, and reporting administrative functions that are not related specifically to a state plan goal or goals.
- **DSA COST CATEGORY:** Provide the amount of money provided to the DSA to carry out its functions. Section 124(c)(5) requires that not more than 5 percent of the Council's allotment for any fiscal year, or \$50,000, whichever is less, shall be made available for total expenditures for the purposes of the DSA agency.
- **NON-FEDERAL SHARE (Match):** Indicate the non-federal share amount. The non-federal share may include cash or in kind contributions, fairly evaluated, including plant, equipment, or services. Federal funds from other sources cannot be the source of the non-federal share. Section 126 requires that the Federal share of the cost of all projects in a State supported by an allotment to the State may not be more than 75 percent of the aggregate necessary cost of such projects, with the exception of:
 - Projects whose activities or products target individuals with developmental disabilities who live in poverty areas; the Federal share of the cost of all such projects may not be more than 90 percent of the aggregate necessary cost of such projects.
 - Projects undertaken by the Council or Council staff to implement State plan activities; the Federal share of the cost of all such projects may be not more than 100 percent of the aggregate necessary cost of such activities.
