

ACL (Administration for Community Living) Webinar Series: Rehabilitation Act Turns 50

RehabilitationAct 50

Part 1: "Origins, Evolution, and Current Day" Wednesday, September 27th @ 3:30pm EST.

Part 2: "Our Future- Youth and Young Adult Engagement and Involvement in Disability Advocacy" Thursday, September 28th @ 4:00pm EST.

About the Rehab Act: replaced the Vocational Rehabilitation Act in order to include disabled citizens in receiving government benefits that can provide vocational services, fund research, and offer training. This created significant precedent for government activity in regard to working with disabled Americans in order for them to live independently.

Why you should attend:

This webinar series will discuss the background of the Rehab Act as well as explore the future of the Act and how young Americans and youth leaders will shape its impact.

This is a great opportunity to enter into a discussion that evaluates the past and future of a bill that impacts all parts of life. This acts as a platform for increasing inclusion for disabled-citizens' input.
